MATERIAL SAFETY DATA SHEET

Identification of the Substance/Preparation

Substance or preparation trade name: French Chalk

Unique Reference Numbers

684001, 684003

Composition

Substance: Talc CAS No 14807-96-6
Content 60-100% w/w

Hazards Identification

Not considered Hazardous under current legislation

First Aid Measures

Inhalation:- Provide fresh air and rest. Obtain medical attention

Ingestion:- Do not induce vomiting. Give lots of water to drink, Obtain medical attention

Skin:-Remove contaminated clothing and rinse in water, Obtain medical attention

Eyes:- Wash eyes with plenty of water for at least 15 minutes, Obtain medical attention

Firefighting Measures

French chalk is not combustible. There are no special hazards or precautions associated with French chalk if in the vicinity of a fire

Accidental Release Measures

N/A

Handling and Storage

There are no special technical measures involved for handling. Normal precautions should be taken to avoid physical injury when moving boxes.

Exposure Controls

OES 1mg/m³ resp.du 8hr exposure

Personal protection: No specific equipment noted when used in solid format.

Physical and Chemical Properties

Appearance: Solid, white

Odour: Odourless

Water solubility: Insoluble

Stability and Reactivity

Normally stable.

Toxicological Information

Dust may irritate respiratory system or lungs

May cause discomfort if swallowed

Powder may irritate skin

Particles in eyes may irritate

Ecological Information

No known harmful effects. No special precautions are required

Disposal Considerations

Dispose of in accordance with local authority requirements.

Transport Information

Not classified

Regulatory Information

None

Other Information

None
