

WLD TIG Features & Benefits

Torch Heads

Lightweight and Durable

- Manufactured with high temperature resistant silicone rubber insulation.
- All copper components ensure cooler running temperatures and maximum current capacity.

Trigger Switches

- A range of switch styles and options are available.

Handles and Boots

Redesigned for Improved Grip

- An additional high grip snap on boot enables rapid servicing and a reduction in downtime.

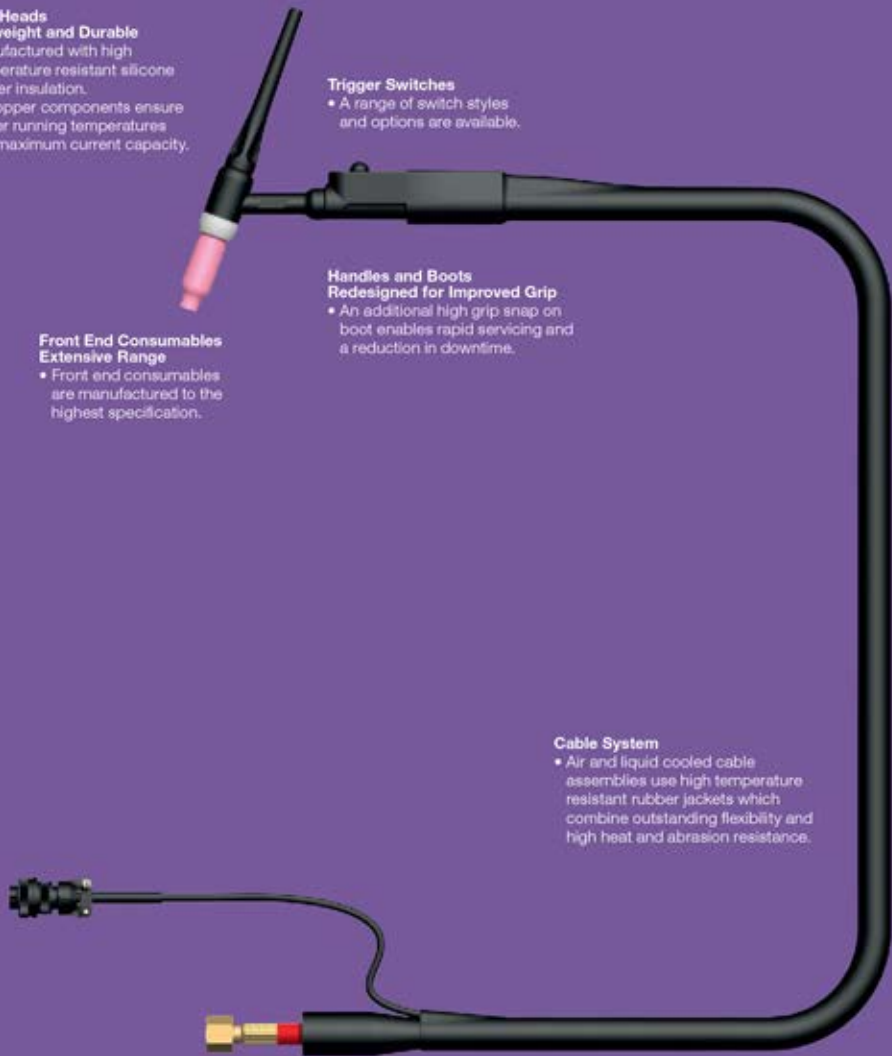

Front End Consumables

Extensive Range

- Front end consumables are manufactured to the highest specification.

Cable System

- Air and liquid cooled cable assemblies use high temperature resistant rubber jackets which combine outstanding flexibility and high heat and abrasion resistance.

Quality Standards

All torches are rigorously tested using computerised and automated test equipment at the design stage through to production. All our components pass rigorous quality control checks prior to assembly.

All torches are designed to be tough and damage resistant and comply with EN60974-7.
